EXPERIENCE

OpenSesame — *Software Development Intern*

Dec. 2015 - present, Portland, OR

- Working as a member of the Product Development team to design, develop, test, and support the internal and production systems of the global enterprise e-learning company.
- Contributing to the new UI/UX features of the Drupal-based web pages.
- Helping with the implementation of agile development methodologies.

PSU Regional Research Institute — *Computer Support Technician*

May - Aug. 2015, Portland, OR

- Provided technical support to staff members of the School of Social Research at Portland State University.
- Followed instructions from the supervisor on imaging computers, updating software, replacing hardware and other technical related tasks.

Parsons The New School for Design — *Learning Space Lab Aide*

Aug. 2014 - Mar. 2015, New York, NY

- Oversaw computer labs, video editing studios, music recording studios and print labs.
- Assisted students and faculty with troubleshooting software and hardware.

LGBT Campus Center, UW-Madison — *Communications Specialist*

2012 - 2013, Madison, WI

- Utilizing Adobe InDesign and Illustrator, I designed all publications including brochures, posters, and flyers for the Center and its associated events.
- Managed Center's website and its social media.
- Worked closely with with center staff on decision-making.

EDUCATION

Epicodus — *Full-stack Web Development*

Aug. - Dec. 2015, Portland, OR

I spend 8 hours a day coding with a partner, collaboratively building address books, to-do lists, and other apps in a variety of popular languages while implementing the concepts of BDD/TDD.

Portland State University — *Computer Science*

Apr. - Aug. 2015, Portland, OR

University of Wisconsin-Madison — *BFA Graphic Design, cum laude*

2011 - 2013, Madison, WI
